

Share My Lesson

Website: <http://www.sharemylesson.com/>

Description:

Share My Lesson is an online community that was officially launched on June 19, 2012. It's an online space where educators can share their ideas, skills and classroom resources and it's free to join. As a member, you can access, download and share high-quality teaching resources such as lesson plans, worksheets, activities, presentations and so much more. As of now, there are over 250,000 resources and over 400,000 members joining this teacher revolution.

How to Use the Resource:

Finding resources:

- 1) You can either find resources by typing in the topic you would like to search in the search box at the top right corner.

Or

- 1) Go to "Teaching Resources" Tab
- 2) Choose the grade level you would like to find resources for
- 3) You will see subject categories and within them will be key word topics.
- 4) Go deeper within your search of resource by selecting which specific grade you are looking for
- 5) Click on the topic
- 6) You will then be directed to a page filled with wonderful resources.
- 7) You will be able to download and save the resource by clicking on the file name

Community Forums:

There is a "Community" where you can discuss and/or debate topics ranging from teaching styles to class and lesson ideas. You can let out steam on the forums and other educators are there to give you support and advice.

Why This Resource is Useful:

- if you find resources you really like, you can “follow” the person who shared their resource
- You can categorize your search into all, newest resource, or recently recommended resources.
- You can save your search and return back later.
- You can save resources by adding them in your favourites.
- You can specifically look at “Highly rated resources”
